

AFZAL HUSSAIN ANSARI

Web Developer | Electronics and Computer Engineering Undergraduate

☎ +918208257784 ✉ theafzalansari@gmail.com 🐙 GitHub 🌐 LinkedIn 🐦 X (Twitter) 🌐 Website 📍 Nashik, Maharashtra, India

PROFESSIONAL SUMMARY

Electronics & Computer Engineering undergraduate focused on the intersection of **Software Engineering** and **AI**, with a strong foundation in **C++ DSA** and **Full Stack Web Development**. Proficient in **C++, Python, JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB, HTML, CSS**, and **Tailwind CSS**. Experienced in building responsive web applications and working with **REST APIs, Git/GitHub**, and **Python data analysis** using **NumPy** and **Pandas**.

WORK EXPERIENCE

Data Analyst Intern | Internship

Edunet Foundation

Aug 2026 - Present

Remote • Nashik, Maharashtra

- Selected for the **VOIS and Vodafone Idea Foundation Data Analytics Internship Program**, implemented by Edunet Foundation.
- Developed practical skills in **data analysis and visualization** using industry-relevant datasets.
- Gained hands-on experience with **analytical tools and Python programming**.
- Participated in mentor-led learning and project-based activities to enhance analytical capabilities.

Technologies / Skills Used : Python, Data Analysis, SQL, Data Visualization, Pandas, NumPy, Matplotlib

Founder & Director – Strategy & Technology | Self-employed

Food Fed Foundation

Aug 2026 - Present

Hybrid • Nashik, Maharashtra

- Leading strategy and technology for **Food Fed Foundation**, a social-impact initiative focused on reducing food waste and addressing hunger.
- Driving the development of its **digital platform**, coordinating technical initiatives, and leveraging modern web technologies to build scalable solutions that support the organization's mission.

Technologies / Skills Used : Leadership, Digital Platforms, Strategy, React, JavaScript, Tailwind CSS, Node.js

EDUCATION

MET Institute of Engineering, Bhujbal Knowledge City | Nashik, Maharashtra

Bachelor of Engineering in Electronics and Computer Engineering

2025 - 2029

CGPA : 8.62

PROJECTS

ResumeCraft AI - Resume Builder | 🐙 Github △ Vercel

Developer

Jul 2026

- Developed an **AI-powered resume builder** that enables users to create professional, ATS-friendly resumes through an intuitive web interface.
- Integrated **AI features** to generate and enhance resume content, ensuring a responsive, user-friendly experience.
- Constructed a modern, component-based application prioritizing **performance**, usability, and maintainable code.

Technologies / Tools Used : React.js, JavaScript, Tailwind CSS, Gemini API Integration, Clerk Authentication, Node.js

MovieFlix – Movie Discovery Platform | 🐙 Github △ Vercel

Developer

Jun 2026

- Developed a responsive movie discovery application, enabling users to browse and search movies via a **REST API**.
- Implemented dynamic routing, reusable **React components**, and asynchronous API requests to enhance user interaction.
- Designed a modern, mobile-friendly interface with optimized state management, improving user experience.

Technologies / Tools Used : React, JavaScript, React Router, REST API, Tailwind CSS, Vite, Node.js

PPS Practice Hub - Interactive Learning Platform | 🐙 Github △ Vercel

Developer

May 2026

- Designed and developed an interactive learning platform for first-year engineering students, featuring programming practice exercises.
- Implemented progress tracking with **browser local storage** and organized content for seamless navigation.
- Prioritized **responsive design** and **accessibility** to enhance the overall learning experience.

Technologies / Tools Used : HTML5, CSS3, JavaScript, Local Storage, Responsive Web Design

Chronos – Task Management Application | 🐙 Github △ Vercel

Developer

Apr 2026

- Developed a **Kanban-style task management application** with features for task creation, editing, deletion, and workflow management.
- Implemented a **component-based architecture** and responsive layouts to enhance user experience.
- Utilized local storage to **persist user tasks across browser sessions**.

Technologies / Tools Used : HTML5, CSS3, JavaScript, Tailwind CSS, Local Storage, Vite

SKILLS

Programming Languages :

C, C++, Python, JavaScript, TypeScript

Frameworks & Libraries :

React, Next.js, Node.js, Express, NestJS, Tailwind CSS

Tools & Platforms :

Git, GitHub

Soft Skills :

Leadership, Communication, Teamwork, Problem Solving, Critical Thinking, Adaptability

Languages :

English, Hindi, Marathi, German

CERTIFICATIONS

Build a Data Warehouse with BigQuery
